

Looking for the perfect gift for someone... How about their own art gallery?

In a quandary over what gift to give a friend, family member or colleague? Nothing says impressive sophistication and class like fine art, but now you can go one step further and give them their own rotating art gallery. **Chicago Art Leasing LLC** allows you to hang original fine art by local artists starting for as little as a dollar a day. You can pick the artwork from our online gallery which includes both up-and-coming as well as already well established artists. If you have specific styles, colors and themes, you can also work directly with many of our artists to commission the work you want.

And if you would rather purchase and own artwork rather than lease it, we are just as easily able to accommodate your preference.

We use reliable and professional, insured installers so that putting up and changing artwork is simple, cost effective and fast. And, by leasing or purchasing our work you are also supporting the Chicago creative community while giving a unique and ever-changing gift to the recipient.

Chicago Art Leasing LLC is your solution for giving the perfect gift of affordable, high-quality original artwork.
